SUMMARY

Full Stack Software Engineer with 5+ years of experience building production web applications using React, TypeScript, and Ruby on Rails. Experienced in designing APIs, scalable systems, and cloud infrastructure across startup and product environments. Strong product mindset with a focus on shipping user-facing features end-to-end.

SKILLS

Technical Skills: JavaScript (ES6+), TypeScript, Python, Ruby, React, Next.js, React Native, Node.js, Ruby on Rails, FastAPI, GraphQL, REST APIs, PostgreSQL, MySQL, AWS (S3, EC2), Docker, CI/CD, GitHub Actions, Sentry, Tailwind CSS

EXPERIENCE

Founder / Software Engineer 2023 - Present
Jampak Remote

- Built a full-stack event platform using Next.js, TypeScript, GraphQL, PostgreSQL, and Prisma to enable artists to host and manage events.
- Deployed and operated production infrastructure on AWS and Vercel supporting real users.
- Implemented CI/CD, monitoring, and observability tools to improve deployment reliability and debugging.

Software Engineer May 2021 - Sept 2023
Zeal Remote

- Delivered full-stack features across React frontends and Rails, Python, and Node.js backends.
- Collaborated with cross-functional teams to ship customer-facing features in fast-paced environments.
- Improved developer workflows and test coverage through internal tooling and mentorship.

Full Stack Developer Nov 2020 - May 2021
C47 Studios Remote

- Redesigned and rebuilt the company landing page using React, improving UX and performance.
- Integrated streaming capabilities for live events and ensured cross-browser compatibility.
- Optimized performance for high-traffic streaming use cases.

Full Stack Developer Oct 2019 - Aug 2020
Alexandria.io Remote

- Designed and developed full-stack applications based on blockchain data publishing protocols.
- Built a crypto trading bot using React and Node integrating external APIs.

EDUCATION

California State University Chico, CA
Bachelor Degree June 2017
